TO THE TRADE.

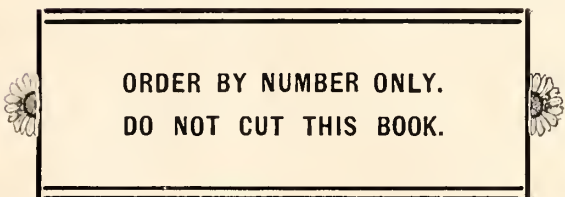

We call your attention to the many new and modern designs of manufactured work for buildings shown in this catalogue, and we would be pleased to give you prices on any or all goods not quoted through the list. In stock work of Sash, Doors, Blinds, Mouldings, Etc., we have the largest manufacturing capacity of any firm in the country, and as we make goods in size and style suitable for all markets, we reach with our product every locality.

Manufacturing our own goods we afford the benefit of uniform make, and keep in stock at our warehouse, West 20th and Sangamon Streets, Chicago, the most complete line of listed stock work at this, the largest Sash and Door market in the world, all bright, clean, newly manufactured stock. and invite the trade to call on us when in Chicago.

Yours very truly,

THE FOSTER-MUNGER CO.

P. S.—To reach our office and warehouse from the down-town center, take the Halsted Street cable cars, which leave from the post office, corner Dearborn and Adams Streets, getting off at 20th Street (fifteen minutes' ride), turn to the right two blocks to West 20th and Sangamon Streets.

ORDER BY NUMBER ONLY.
DO NOT CUT THIS BOOK.

SPECIAL NOTICE:

In ordering or making inquiry on special cuts or designs shown in other than our catalogue, *simply refer by number, "stating whose book,"* as we have in our office copies of every book published.

DIRECTIONS FOR ORDERING.

GIVE WIDTH FIRST in specifying sizes: this applies to all goods in our line.

ORDERS FOR SASH should state the size of the glass, number of lights in window, whether plain or check rail, glazed or unglazed. (If glazed, state Single or Double Strength Glass.) For segment or circle top windows, always give the radius of the segment and circle, otherwise we shall make our regular radius, which is the width of the window. For circle head and segment head windows, always state whether they are wanted to finish circle inside and outside, like plans 1 and 3, on page 7, or to finish circle on outside only, as plans 2 and 4 on same page; also, where frames are made, we should have width and height of the frame in the clear, and if not regular Western sizes as shown in sash measurements in this book, then give size of Sash Opening. (Sketches of odd sash are better than descriptions.)

ORDERS FOR DOORS should state size, thickness, number of panels and quality; if moulded, say if one or both sides, flush or raised moulding. From patterns in this or other catalogues, refer by *number*. If special design, make sketch.

ORDERS FOR OUTSIDE BLINDS should state size of glass, number of lights in window, thickness of blinds, stationary or rolling slats; if for segment or circle head windows, give radius; also it is well to mention if for wood or brick building.

ORDERS FOR INSIDE BLINDS should state exact size of opening (outside measure), the number of folds (width of box, if any,) and if panels or slats, and where blinds are to be cut. If of patterns shown on page 44, refer by number or make sketch if special.

ORDERS FOR FRAMES should state whether for a frame or brick building; if for a brick building, give thickness of wall; if for a frame building give width of studding, and whether outside or inside, or both. For Window Frames, state if for plain or check rail sash, with or without pulleys. For inside door jams, give the width of the jamb, whether with rabbet or stop.

ORDERS FOR MOULDINGS should give plainly the number of the Moulding. We use the new Universal Book. If special Moulding, give exact detail or sketch.

REFER BY NUMBER in catalogue or send sketches as far as possible on anything other than common stock.

CIRCLE TOP AND SEGMENT WINDOWS.

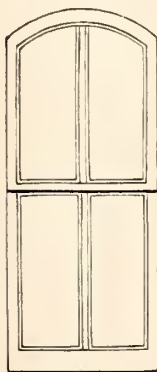

1

For Window Frames, Circle
inside and outside.

2

For Window Frames, Circle
outside, Square inside.

3

For Window Frames, Seg-
ment inside and outside.

4

For Window Frames, Seg-
ment outside, Square inside

PLEASE BE EXPLICIT IN GIVING YOUR ORDERS.

Windows made in the above forms can be filled with any number of lights required.

N. B.—A Window indicates two pieces. A sash indicates one piece. A pair of Blinds indicates two pieces. A Blind indicates one piece. A set of Sash or Blinds indicates more than two pieces, and order should be accompanied with sketch.

FRONT WINDOWS.

SEE FOLLOWING PAGES.

We show on following pages many patterns of our

ORIEL FRONT WINDOWS

Now used in nearly every new house, adding beauty and comfort to parlors and living rooms.

Regular stock windows opening in center bring the check rails opposite the eye and obstruct the view. You will at once see the great advantage our "Oriel" style affords, giving large, handsome and attractive lower lights at reasonable cost. In these large lower lights we use only the very best Double Strength AA selected glass, giving handsome effect, or at additional cost, the best polished plate.

INSIDE FOLDING BLINDS.

SEE OUTS ON NEXT PAGE
AND LIST PRICES BELOW.

We make a specialty of Inside Blinds, turning out the very best of work, all smooth, clean, selected stock suitable for oil finish; and by giving particular attention to this branch of our business are able to compete in prices and give best workmanship.

We get out Inside Blinds in White Pine, Yellow Pine, Oak, Cherry, Walnut, in fact all woods and any description of style suitable to different markets.

Write for prices in quantities.

1½ inch O G Stiles and Rails, Bevel Panel or Rolling Slats,
measuring height of window. PER FOOT.

Fold up to and including 2 feet wide.....	\$.85
3 Fold up to and including 2 feet 11 inches wide...	1.10
4 Fold up to and including 2 feet 11 inches wide...	1.25
4 Fold over 2 feet 11 inches wide and under 4 feet..	1.40
6 Fold over 2 feet 11 inches wide and under 4 feet.	1.65

For ¾ inch deduct 5 per cent.

The above prices are for Pine. If hard wood, such as Cherry, Ash, Maple or Black Walnut are wanted, we charge extra price.

DIRECTIONS FOR ORDERING.

First—In all cases give the exact outside measure of Blinds wanted.

Second—Give the number of folds.

Third—State if Blinds are to be all slats, or ½ panels and ½ slats.

Fourth—State distance from top of window to center of meeting rail of sash, or where Blinds are to be cut.

Fifth—Give thickness of Blinds.

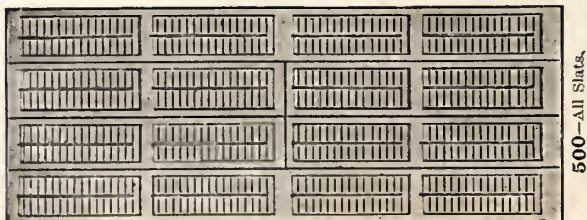

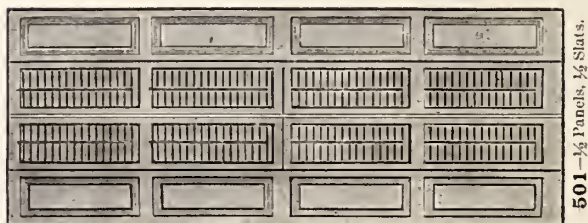

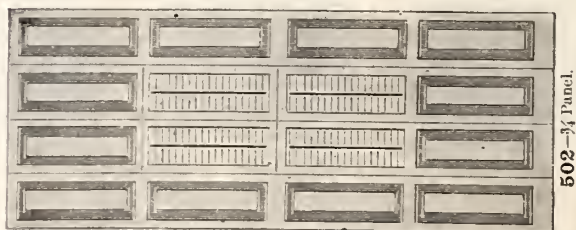

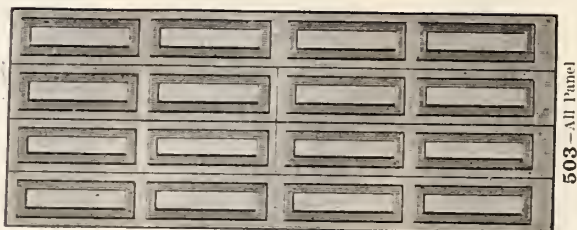

Sixth—If Blinds fold in pockets, give the size of pockets.

Seventh—State if Blinds are to be painted or finished in oil.

Eighth—If for oil finish, extra price.

See index for Sliding and Venetian Blinds shown in this Catalogue.

10 inch same price as 12 inch. Subject to door discount.

NOTICE.

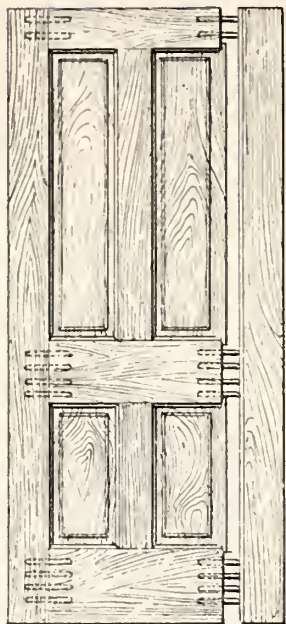

We manufacture SIDE LIGHTS finished to correspond with any of the COTTAGE FRONT DOORS at a slight cost over ordinary moulded side lights.

Write us for net prices, stating design and size.

Any design of door furnished, whether illustrated in our book or that of another manufacturer or dealer.

THE "PERFECT" DOWEL DOOR.

WE MANUFACTURE NO OTHER.

STRONGEST AND BEST DOOR MADE.

The Dowel Door is the greatest improvement in door-making ever attempted by western factories, combining both strength and beauty, doing away with ugly pins and tenon, an oil finish construction with strength added.

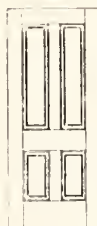

WE GUARANTEE EVERY JOINT PERFECT AND CANNOT OPEN.

Every practical door-maker and builder knows the so-called "Blind Mortise" Door (Pine Stub Tenon) *is weak*.

The old style pinned door with tenon running through stile and wedged is second to the Dowel Door in strength, accordingly preferable to the "Blind Mortise" Door.

The Dowel Door with twenty hardwood dowels (ten on each side) 9-16 in. x 6 in. driven and glued does away with pins and tenon, and is the strongest and best door manufactured. We make all our stock doors this way and charge nothing extra.

Panels in our $1\frac{3}{8}$ stock doors finish full $\frac{5}{8}$ in. thick.

veneered doors...

On the following pages we show many designs for VENEERED DOORS with cuts of Sticking, etc.

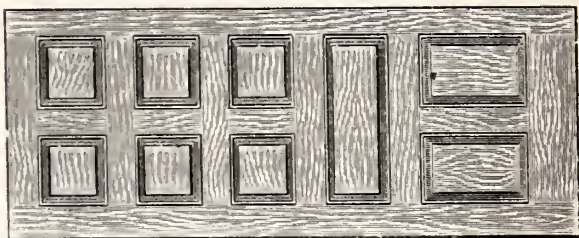

We aim at showing only the more popular or late styles of doors for Inside Veneered Work that are being adopted in the better class of Modern Houses and Public Buildings. We work in all the Hardwoods, Select to Grain and give excellent Smooth Finish, perfect joints and make a door that will Not Warp or Twist.

On Veneered Doors, we lead them all, both in quality and price.

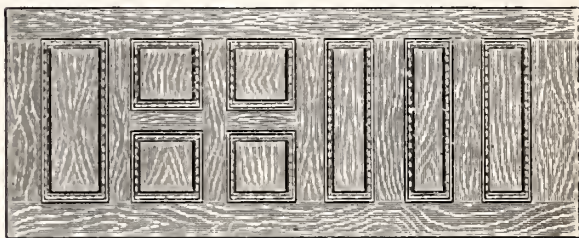

Will be pleased to quote prices on application.

MODERN STYLE INSIDE DOORS.

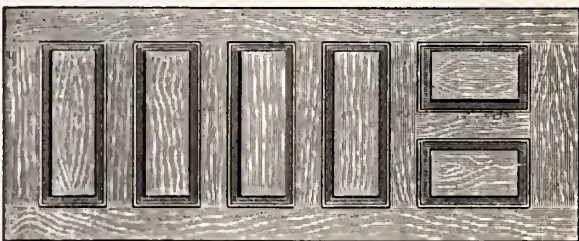

Made up solid or veneered in Pine or Hardwoods.

487

478

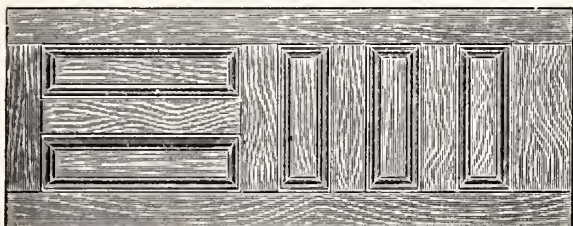

477

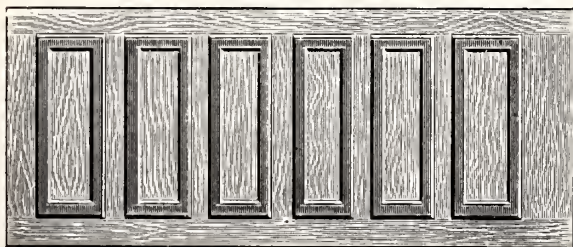

We often make with White Pine Stiles and Rails and Yellow Pine or Hardwood Panels, or of any one wood, solid or veneered.
See style of Sticking on page 105.

Usual size made, $\frac{7}{8}$ x6 in. high, 12c per lineal foot.

All above prices subject to discount.

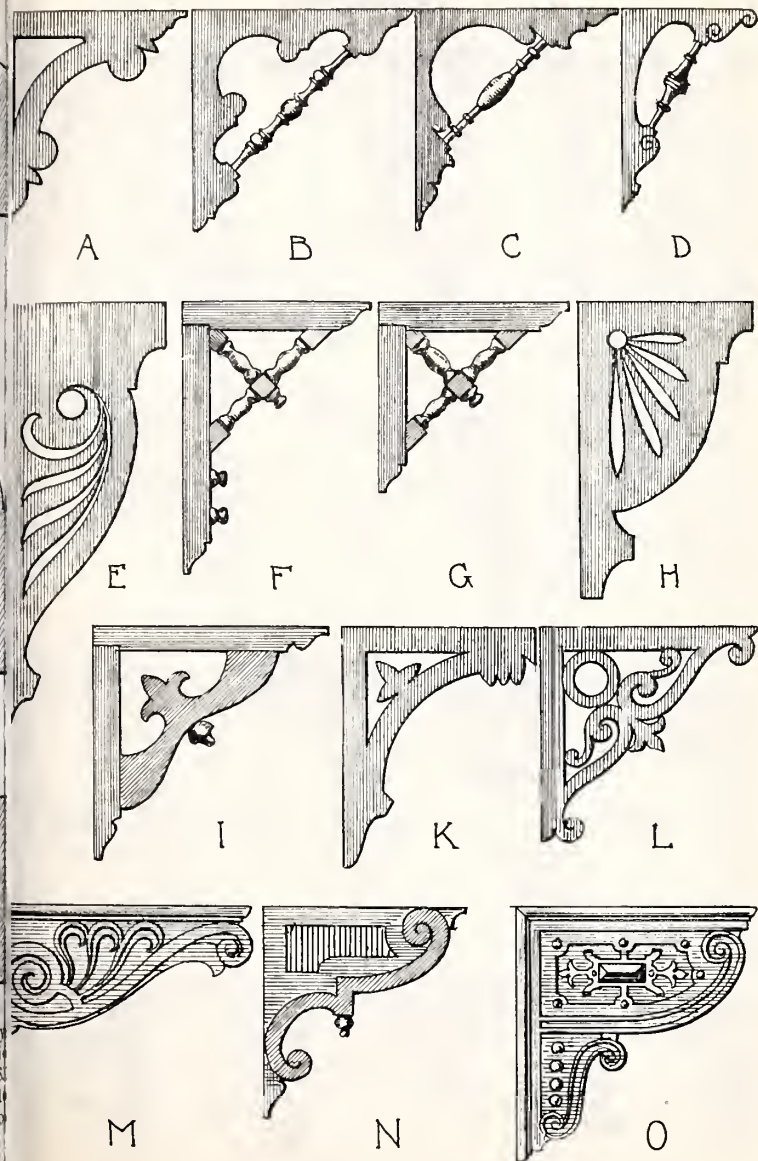

OUTSIDE TOP AND BOTTOM PORCH RAIL.

We show the above patterns in the usual size made and any of them can be reduced or enlarged in size in proportion to listed price for example, No. 1614 reduced to the size of No. 1610 would take a \$3.00 list. We call particular attention to Beaded Porch Rail No. 1611 which we ship out in lineal lengths and can be cut up, forming Perfect Balusters very low in price, and makes first-class porch job.

DESIGNS OF PORCHES OR VERANDAS.

We show on the following pages a variety of styles of Porches of different patterns particularly practical inasmuch as we confine the Porch Work shown largely to stock Newels, Balusters, Rails, Posts, Etc., such as we carry in stock and can be furnished at reasonable prices, and put in place at minimum cost by builders.

We call particular attention to the following:—Porch Pattern No. 5002: made from Column No. 1653, Spindle No. 1683, Bracket Style "B," Top Rail No. 1604, Bottom Rail No. 1616, and Balusters cut from lineal lengths of $1\frac{3}{4}$ inch Beaded Porch Rail Pattern No. 1615, Newel No. 1611.

Porch Pattern No. 1503 includes Octagon Column No. 1660, Sawed Balustrade No. 1701, Newels No. 1639, Sawed Tracery No. 16, Top Rail No. 1604, Bottom Rail No. 1610.

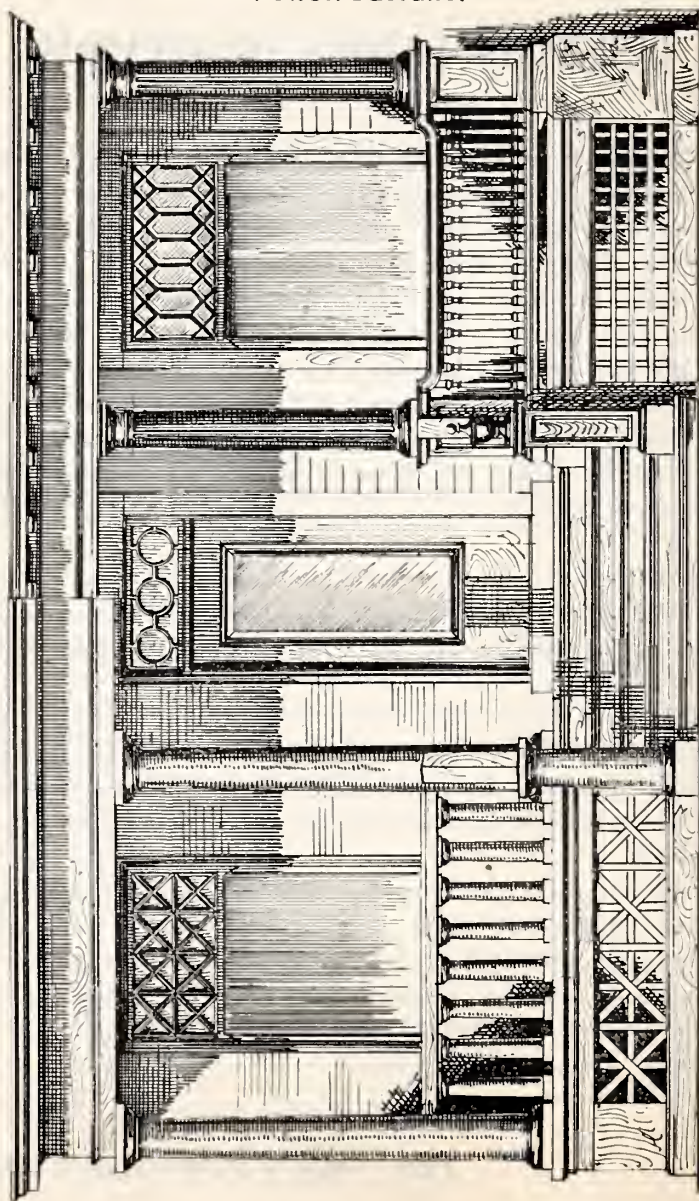

Patterns Nos. 1504, 1505, 1506, 1508, 1509 and 1510 are all taken in the same way from patterns of Porch Newels, Columns, Spindles, Balusters, Tracery, Brackets, Etc., as you will find shown by cuts with list prices in his book.

We are in a position to furnish promptly at lowest market prices all classes of Porch Work, and solicit inquiry and correspondence in this line of work, which we make a special feature not only in common stock goods, but in Corinthian and Fluted Columns, Carved Capitals, Etc., as illustrated.

Yours very truly,

THE FOSTER-MUNGER CO.

STAIR WORK.

We give particular attention to this important branch of our business and are practical stair builders, and guarantee the material used and workmanship to be first-class. We are prepared to furnish Stairs complete or Newels, Railings or Balusters for either plain or highly ornamented and intricate Stair Cases at low prices.

We make Stair Work in Pine, Ash, Oak, Black Walnut, Birch, Cherry and other woods, either knock down or set in place.

When ordering Stairs, note the following directions:

- A. Give height of story from floor to floor.
- B. Give width of joist in second story.
- C. Give whole width of stairs to outside of strings.
- D. Give rise and run as cut on string board.
- E. Give number of risers, treads and nosings.
- F. Give width of cylinder from face to face.
- G. Give width and style of base in hall.
- H. State which way stair turns at top.
- I. Give sketch of floor plan.

Your order should state kind of wood wanted in the different parts, and should distinctly specify:

1. NEWELS—Design, size of shaft or base, etc.
2. PLATFORM NEWELS—Design, size of shaft or base, etc., and where located. "Show by plan."
3. BALUSTERS—Design, size, whether short, long or medium. If for boxed string, state length.
4. RAILING—Design, size, number of feet of straight in pieces. Number of feet in pieces on the run.
5. CROOKS—(a) Easing at Newel, whether flare or straight. (b) Cylinder—Give plan showing number of treads involved, size of cylinder, and position of last riser. (c) Quarter turn—Radius of circle and position.
6. TREADS—Length, width and thickness, which end returned, if any.
7. RISERS—Length, width and thickness.

We will furnish you, upon request, plans and estimates of any style of work illustrated in any book or according to architect's plans.

NOTICE.

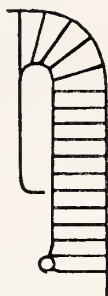

On the following pages, we show many new and modern styles in Stair Work, such as we have recently executed and call particular attention to new cuts shown.

HARDWOOD MANTELS.

On the following pages we show many of our modern designs of Hardwood Mantels of the best workmanship and at lower prices than heretofore offered. We furnish these Mantels principally in Oak plain-sawed or quarter-sawed, or Birch and are finished Natural finish.

The Oak can be treated Medium, Antique, or Old English and the Birch Natural or to imitate either Cherry or Mahogany. Both are usually recommended in Natural finish. Where samples are sent of the room finish we can treat Mantels accordingly.

These designs can be furnished in Curly Birch at an advance of about 15 per cent.; in Bird's Eye Maple at an advance of 30 per cent., or finished in White and Gold at an advance of 30 per cent.

The Mantels are made with adjustable wall plates to fit chimney breast from 4 feet 10 inches wide up to 5 feet 4 inches wide. Special prices will be furnished on inquiry for special sizes.

The enamel and embossed tiling as shown in cuts on face and earth can be changed about and substituted in the different Mantels and in most cases at the same prices quoted. There are different shades and tints of tiling and, if left to us we select those which harmonize best with the wood selected or can, if desired, forward samples of tiles.

In shipping the Mantels, we send everything necessary for setting them up as shown in the picture excepting a few common bricks and a little mortar, which customers are enabled to furnish at less than the freight charges would amount to.

In ordering, always give width of chimney breast and kind of wood wanted.

Yours very truly,

THE FOSTER-MUNGER CO.

PULPITS, PEW ENDS AND RAILING.

Made in Pine, Whitewood or any of the Hardwoods.

MOULDING.

Inasmuch as we make a specialty of the manufacture of Mouldings and do a heavy business in that line, shipping upwards of 10,000,000 feet last year, we concluded it best to issue a separate and complete catalogue of Moulding, and if you have not already received a copy of our Moulding list, we would be pleased to send same upon request. By referring to the index of this list, you will find pages showing novelties in Mouldings, like Rope, Turned and Carved; also many modern designs of Casings and Finish for Doors and Windows. We refer particularly to pages 214-218. But for Stock Moulding write for our Stock Moulding catalogue.

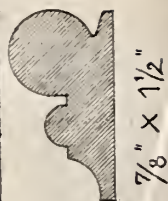

MOULDING.

Our Moulding Lumber is all thoroughly kiln-dried, stuck slow feed, absolutely smooth, perfect manufacture, of the best quality, and good lengths, 12, 14 and 16 feet, trimmed ends and well bundled. We have a heavy shipping trade in Mouldings, Casings, Base, Etc., both in small lots and car lots, and work to any design or pattern. Also get out trim and finish of any style cut to lengths and bundled. We work Mouldings in *White Pine, Basswood, Poplar*, also Oak or any of the other Hardwoods, and specially solicit correspondence pertaining to Mouldings, as in this important branch of our business, we can certainly make it to your interests to trade with us.

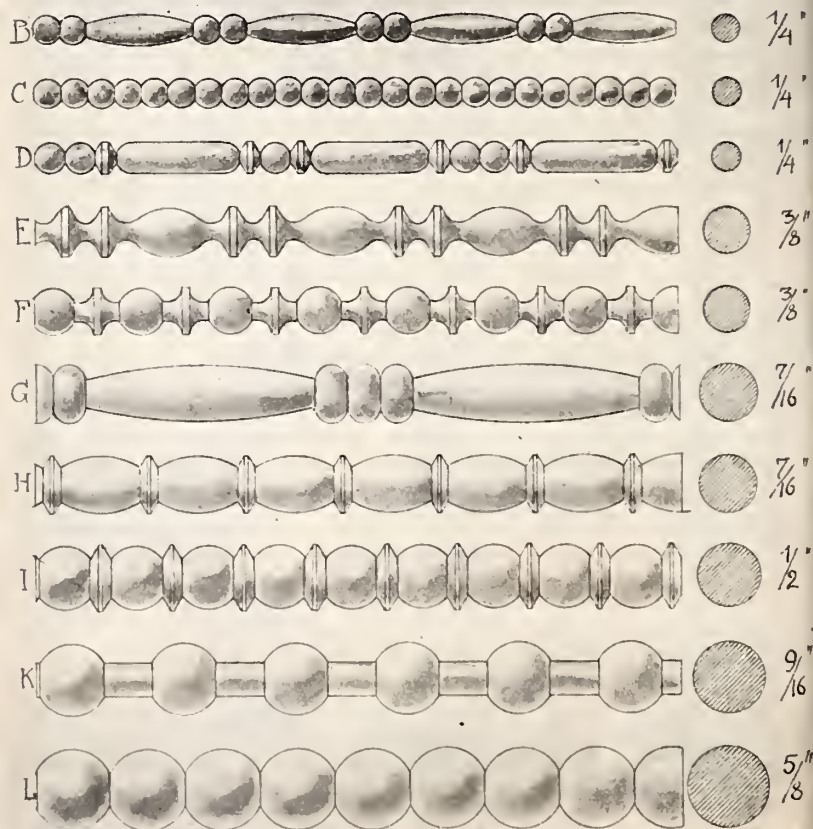

MOULDING.

Write for Complete Moulding Catalogue.

SPECIAL FANCY PICTURE MOULDING

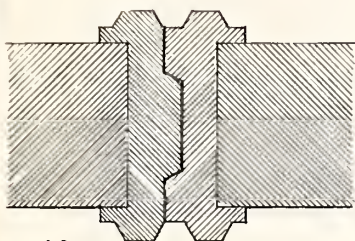

FANCY TURNED MOULDING

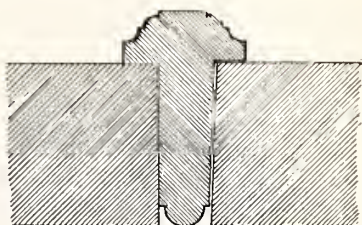

ASTRAGAL MOULDINGS.

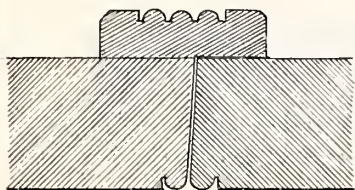

SLIDING AND FOLDING DOORS.

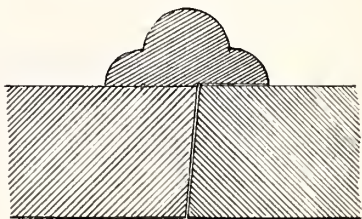

Nº1 SLIDING DOOR

Nº2 FOLDING DOOR

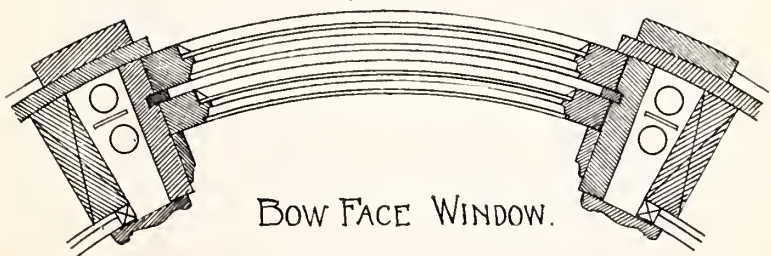

Nº3 FOLDING DOOR

Nº4. FOLDING DOOR.

Gotten out in proper lengths and to suit any thickness of doors, 1 $\frac{3}{8}$, 1 $\frac{1}{4}$, 2, 2 $\frac{1}{4}$ inches thick, etc. Made in Pine or any of the Hardwoods. In ordering Patterns Nos. 1 and 2, specify thickness of doors.

BOW FACE WINDOW.

We make special prices on above line of work, gotten out in Pine or any of the Hardwoods.

HILL'S PATENT SLIDING WINDOW BLINDS.

1

2

We are agents for the "Hill" Patent Sliding Window Blind, which is the best sliding blind on the market, made very light, only $\frac{1}{2}$ inch in thickness. Can be closed with the window raised and cannot blow open or rattle, thus giving the best medium of ventilation. They require no hinges, and all trimmings and hardware we furnish. They do not interfere with curtains or window ornaments and admit light and air from any part of the window. They neither rattle nor get out of order, economize space and can be used with or without pockets below. *They require no special frame, as they can be attached with equal facility to any ordinary window frame.* For workmanship and style are not equalled by any in the market. For prices, see page 235.

LIST PRICE 'HILL' SLIDING BLINDS.

Prices given are per lineal foot in height, including necessary hardware.

In ordering *White*, always state it for Inside or Outside work.

Our “Four A” Ready Mixed Paint (ready for use) is prepared from pure material and is the most economical paint on the market, quality considered. One gallon of this paint will cover 300 square feet two coats easily applied, no waste or setting and will not crack, peel, blister or chalk off.

DIRECTIONS FOR GOOD RESULTS IN PAINTING.

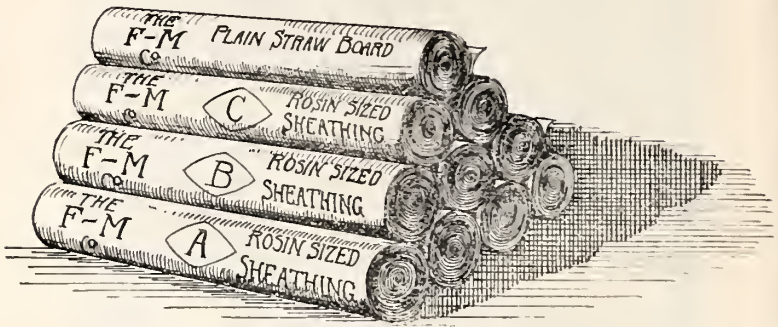

Stir the paint well from bottom; size all knots and sappy portions with Shellac; putty all nails, etc., after first coat. Let first coat get thoroughly hard before applying second. Do not paint while work is wet or damp. If too thick thin with boiled linseed oil, except *Inside White* and this *only* thin with turpentine.

WOOD CARPET.

ORNAMENTAL PARQUETRY.

WOOD CARPET

Made of Quartered-sawed White Oak, Walnut or Cherry. Quartered White Oak the standard.

This floor covering or carpet made of hardwood strips $1\frac{1}{2}$ inches wide, glued on heavy cotton cloth, makes an inexpensive healthful floor, insect proof and easily kept clean. In laying, can be cut to fit any room and is used in connection with strip borders, making a handsome, stylish floor, as cheap as good carpeting. Any carpenter can lay wood carpet.
